

6.5K BlastLight™

The 6.5K BlastLight™ is a compact, portable system that provides 6500 watts of short duration high intensity light for high-G applications such as onboard or military use. With a broad, even wide-angle beam, the 6.5K BlastLight™ is ideal for illuminating confined spaces.

FIXTURE

Wattage	6,500
Color Temperature	5400° Kelvin
CRI	+96
Dimensions	12" x 8" x 5"
Weight	4 lbs

POWER SUPPLY

Dimensions	22" x 14" x 9"
Weight	52 lbs

CHARGER

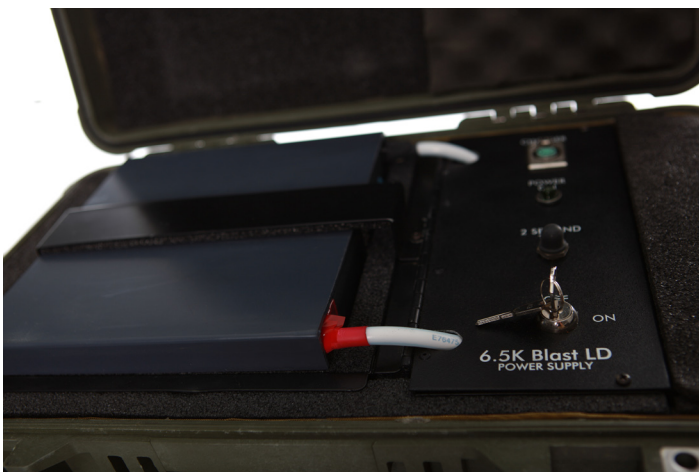

Dimensions	16" x 8" x 5"
Weight	5 lbs

PHOTOMETRICS

37,600 lux (3,500 foot candles) spread evenly at 39°
120° horizontal by 100° vertical beam spread

SPECIAL FEATURES

- 500 G of acceleration resistance
- 1,000,000 frames per second flicker-free
- 1 millisecond to reach full intensity
- Remote triggering
- 100 foot extension from power supply to light fixture
