

30K LabLight Linear

The Luminy's 30K LabLight™ is the first mobile high intensity lighting system specifically designed for high speed shots that require exceptional light output for high-speed photography.

Luminy's 30K High Speed Light™ features a wrap around soft light source filling in shadows and bringing never-before-seen detail with fewer, compact high efficiency lights. As well as greater control and reliability for producing unmatched high-speed photographic results.

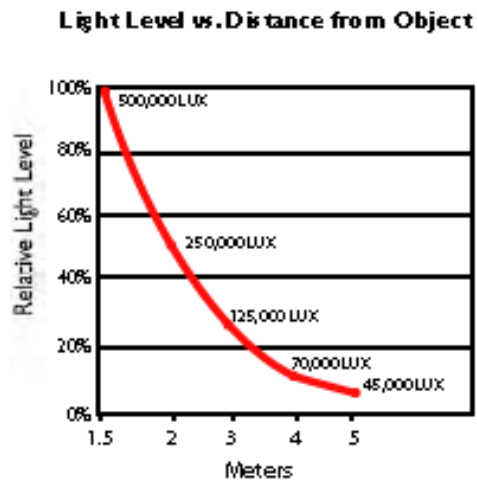

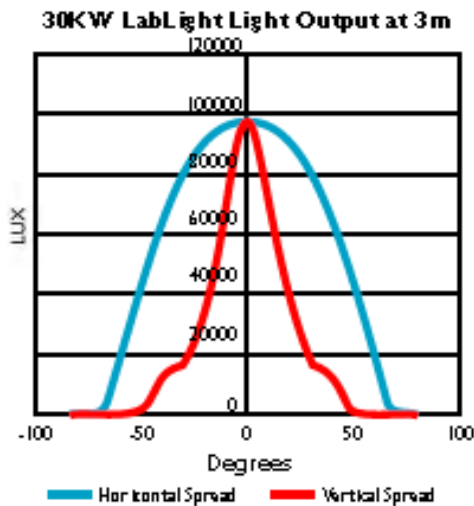

FIXTURE

Wattage	30,000
Lamp Type	Enhanced Spectrum Long (ESL)
Color Temperature	5400° Kelvin
CRI	+96
Dimensions	26" x 14" x 14"
Weight	29 Pounds

POWER SUPPLY

Dimensions	18" x 18" x 33"
Weight	270 Pounds
Input Power	220 VAC, 12 amps (50-60Hz)
